PROFESSIONAL SUMMARY

Experienced Software Engineer with a strong background in .NET, Angular, and AWS, seeking to leverage my skills in delivering scalable solutions and optimizing performance. Committed to continuous learning and innovation, I aim to contribute to a dynamic team and drive software excellence.

WORK EXPERIENCE

Technical Consultant, Dunn Edwards Paints
Feb 2024 - Aug 2024

- Built .NET Background Service to Sync up HubSpot and SAP internal Database.
- Stabilized Incentive admin application, updated architecture, and AWS deployment throughout all environments (Staging to Prod)
- Worked on Shopify and .NET internal worker services for dunn-edwards.

Senior Software Engineer, Resimator Oy
Nov 2022 - Feb 2024

- Crafted a full-fledged business solution for property owners.
- Led web application enhancements for improved UX at Izy using Angular.
- Used .NET for scalable solutions and seamless Payment integration in the Kiosk system.
- Daily international team coordination for cross-border collaboration.

Senior Software Engineer, Whitehat Engineering
Sep 2022 - June 2023

- Shifted RASI's infrastructure to AWS to make it highly available to more than a million users.
- Optimized back office software built in C#, Angular, Node.js, and React to increase performance by almost 25%.
- Worked with a research team to find a solution for high-end caching.
- Maintained a large code base built in .NET MVC, jQuery, and JS.

Software Engineer, Verisk ISO
Aug 2021 - Aug 2022

- Crafted an Admin Support tool for businesses to decrease support time needed for users to days from the week using .NET & Angular.
- Learned AWS cloud technology and a lot about DevOps flow.
- Collaborated in Agile methodologies in a cross-border team environment.
- Rewrite the entire ISO Claim software to the new Tech Stack (.NET & Angular) with increased performance.
- Mentored a team of trainees to build useful in-house software.

Software Engineer, Crossover Nepal
Dec 2019 - Aug 2021

- Worked on different modules for a Property Management system.
- Built Web and Mobile Applications for an Appointment booking system.
- Promoted through Intern to mid-level engineer and led Full-Stack projects for top Nepalese hotels.
- Mastered development phases, demonstrating expertise in software engineering, and learned to work within an organized company.
- Learned different tech stacks from .NET, Angular, Ionic, Material design, JavaScript, and overall Full Stack development.

EDUCATION

Bachelor's Of Computer Engineering
Tribhuvan University
Oct 2016 - Mar 2021

- Completed Minor Project (E-commerce with image search).
- Completed Major Project (CV-Screening using ontology mapping).
- Participated in different Hackathons and Software Exhibitions.

SKILLS

Programming Language

C#, Typescript, JavaScript, Python, Dart, SQL, C++, C

Framework & Libraries

Microsoft .NET Core & Framework, Angular, Angular.js, Flutter, Ionic, MAUI, React.js, Node.js

Databases and Tools

MSSQL, Postgres, MySql, Firestore DB, SSMS, DBeaver, pgAdmin

Development Tools

Git, Docker, Bamboo, GitHub Actions, Octopus, Jenkins, Azure DevOps, LINQ pad

Cloud Computing

Microsoft Azure, AWS, Google Cloud Platform, Firebase

CERTIFICATION

Post Graduate Certificate
Full Stack Software Development
Lambton College, Toronto, Canada

Hacker Rank Certificate
Angular, SQL, SE, C#
Hacker Rank

ACHIEVEMENT

Four Year Scholarship
Received a full-fee four-year scholarship while studying for my Bachelor's at Tribhuvan University.

ACTIVITIES

Mentor & Interviewer - Verisk
March 2022

IT Head - Leo Club of Kathmandu
June 2021 - July 2022

Other Software I am used to:

HubSpot Sales CRM, SAP, Shopify, Figma, Adobe Photoshop, Adobe Illustrator, Blender, Unity, Unreal Engine, Google Docs, MS Office, Postman, SoapUI, Balsamiq, SharePoint, various Add-Ins
